

Dear Grade 7 Student / Parent / Guardian,

R. C. Palmer Secondary School offers a Pre-AP Honours Math Program to which you/your son or daughter may wish to apply. Pre-AP Honours Math 8 is the first course in this two-year program, which is designed to accelerate capable and motivated students through the junior Mathematics curriculum. In this way, three years of Mathematics (Math 8, 9 and 10) are covered within two years (Grade 8 and 9), whereupon successful completion, these students will then be one year ahead in their Mathematics education at high school. Subsequently in their Grade 10 year, these students may register for the regular Pre-Calculus Math 11 or Enriched Pre-Calculus Math 11 course, then take Pre-Calculus Math 12 during their Grade 11 year, and ultimately in Grade 12 be able to take Advanced Placement Calculus, which is the equivalent of a first-semester university calculus course.

Entry into the Pre-AP Honours Math 8 class is by application, and candidates will be required to write **an Entrance Exam in Math (scheduled for Thursday, February 9, 2017 at 8:30am at Palmer School)**. Students who are applying for Palmer’s Pre-AP/Incentive Program are also required to write this Math Entrance Exam, and to submit a separate application form for the Pre-AP/Incentive Program. In addition, if the student is applying from outside our school’s catchment area, a completed school transfer form is required as well. All forms are available from our school office.

The deadline for submission of this application form is Friday, February 3rd, 2017. Please contact Mr. A. Wong at Palmer if you have any questions regarding the Pre-AP Math program.
